Robert Golde Joins Connecticut ACE Mentor Board

Robert Golde's passion for promoting the design and construction professions and his commitment to educating the youth of this state have earned an invitation to serve on the Board of Directors of the ACE Mentor Program of Connecticut, Inc. Mr. Golde, a partner of Towers|Golde, Landscape Architects and Site Planners, of New Haven, has been serving as an ACE Mentor since 2008. Brian Bacon, Landscape Designer, also of Towers|Golde, has joined the New Haven Chapter ACE Program as a mentor recently as well.

This organization has established chapters in five major Connecticut cities: Greater Bridgeport, Hartford, New Haven, Stamford, and Waterbury. Each chapter offers a for-credit after-school program that helps high school students explore career opportunities in architecture, construction, and engineering. Mentors, all practicing professionals, guide their student teams through a range of industry-related learning activities including tours of construction jobsites and professional offices, lectures by expert speakers, and work on a real-world project.
